

The sports premium is a grant given to every primary school in the United Kingdom to be used solely for the enhancement of pupils' physical health. Each academic year since 2013, schools have received an £8000 base grant with an additional £5 for every pupil in key stages 1 and 2.

This academic year, Our Lady of Walsingham School received a grant of £9320. Our Sports Premium impact report can be found by following the link below.

Our key partners in the effective use of this funding are:

Northamptonshire Sport

Northamptonshire Sport work with us in training our teachers and providing CPD for our staff. All teachers receive in-lesson mentoring from a specialist.

Corby, Oundle and Thrapston School Sports Partnership

We are supported by the partnership in two ways. Firstly, we receive bespoke support in school for half a day each week. The Enhanced Sports Premium Officer, a former PE coordinator who now works for the partnership, works with our PE lead, sports crew and teaching staff to develop our provision to make sure that every child is supported by the funding in an appropriate way. This includes curriculum time, sport, physical activity, healthy eating projects and intervention groups.

The partnership also offers a wide range of level two school games competitions for our pupils to test themselves in. Each year we have been able to increase the number of competitions we attend, and the number of different pupils who attend them, thanks to the sports partnership offer.

Northamptonshire County Council

We work closely with the council's healthy child team to ensure that we are doing all we can to make sure we provide the best and most appropriate food and activity options of our pupils. This involves regular meetings with our area Healthy Child Advisor and support in training and running our change 4 life intervention group.

Local Sports Clubs

Through close links with local clubs such as Corby Tennis Academy, Corby Kickboxing Club, Corby Smash table tennis and Stewarts & Lloyds Rugby Club, we are able to provide a wider range of activities than might otherwise be possible, as well as linking into local sport and talent pathways.
